

DELICATE CHILDREN

are often dosed with medicine when all they need is nourishment—good, wholesome food-value which they can digest.

In school days and changing seasons give the children Scott's Emulsion which scientific tests for nearly forty years prove to furnish just the working-energy and body-building elements which nature requires.

Scott's Emulsion is a simple and easily digested fat and contains no wine, alcohol or drug.

Scott & Bowne, Bloomfield, N. J. 12-117

ASK FOR Kryptok Lenses

If you require double-vision lenses, you will enjoy Kryptok Lenses. With them you are certain of having becoming glasses, perfect for near and far view, and entirely free from any odd appearance or suggestion of advancing years.

* They can be put into any style frame or mounting or into your old ones.

MAUNAOLU SEMINARY CLOSES YEAR OF GENERAL PROSPERITY

[Special Star-Bulletin Correspondence.]
WAIALEA, Maui, Jan. 15. The annual meeting of the trustees of the Maunaloa Seminary located at Maunaloa, Maui, was held last week. All the trustees were present: H. A. Baldwin, president; D. C. Lindsay, secretary and treasurer; other members, Mrs. H. P. Baldwin, H. W. Rice, Rev. R. B. Dodge, F. W. Hardy, Clarence G. White, Miss Eva L. Housner, the principal, was also with the board while it was in session.

The board elected Rev. A. Craig Bowdish trustee in the place of Rev. E. B. Turner, resigned. The election of officers for the new year resulted as follows: H. A. Baldwin, president; F. W. Hardy, vice-president; D. C. Lindsay, secretary and treasurer. The president and secretary together with Rev. Mr. Bowdish were appointed a teachers' committee, while the officers of the board were made a permanent executive committee of the institution.

Some interesting matters for discussion were brought up—viz, the lighting of the building with electricity, and the obtaining a new water supply for the school. Suitable committees were appointed to attend to both these matters.

The past year has been a most prosperous one for the school. The

receipts have been satisfactory, although extra and unexpected expenses along some lines caused a slight deficit in the accounts for the year. The school has a large number of pupils and the work is on a higher grade than ever before.

The improvements about the grounds have been great. Mrs. H. P. Baldwin erected a roomy playhouse for the girls on rainy days, which has added greatly to the resources of the institution. A new chimney, the addition of a milk room, together with a new approach to the building from the government road have all made a vast improvement in the property of the seminary as a whole.

Rev. Mr. Bowdish is holding special meetings for the girls of the seminary this year. From time to time other speakers are secured to give special addresses to the school. New hymn books were purchased through the generosity of the Ladies' Aid Society of the Makawao church, so that the girls are becoming more proficient in the use of hymns. The musical department of the school is very strong. The coming of Miss Calvert, the new house mother, is a great blessing to the institution. She looks after the welfare of the students, and has general oversight of the house as a whole.

DALLAS TO MAKE NOBLES WELCOME

DALLAS, Texas—Jama is expecting to send 250 Shriners to Dallas for the Imperial Council meeting next May. There are four Shriners in Iowa, in Des Moines, Davenport, Cedar Rapids and Sioux City, respectively. Des Moines will send a delegation of seventy-five including the famous Arab Patrol of that city. According to advices received the Iowa Nobles will assemble at one point for a joint pilgrimage to Dallas.

Dallas is preparing to entertain the Iowans on an elaborate scale. Contrary to the general supposition Texas presents many scenic charms and it has cities within easy riding distance which present diversified attractions to the visitors. May is one of the most beautiful months of the year from a climatic standpoint and the Lone Star State will be in her best attire in honor of the visitors.

Jerusalem Temple of New Orleans will strive to have the largest representation of any Southern Temple. Known to Dallas the Nobles of the Crescent City plan to visit Galveston, the great seaport of Texas, where they will enjoy the surf bathing and other attractions of the island city. As many of the Eastern Temples will make the pilgrimage to Dallas via sea, either to New Orleans or Galveston, Jerusalem Nobles have issued and invitation to join them in the last stages of the pilgrimage.

Moslem Temple of Detroit, Mich., is planning a special train from there to New York, the trip south to be made by boat and return by special train through the central states. Forty of the officers and members of Moslem Temple recently participated in the dedication ceremonies of Moslem Temple's new mosque at London, Ontario, and Shriners of that section of Canada are planning to join the Detroit Nobles in their pilgrimage to Dallas.

El Mina Temple of Galveston, Texas, is planning entertainment for Imperial Shrine visitors on a scale that promises to leave pleasant associations of the Island City in the memories of the Arabs from other states. Fifty Nobles of Mecca Temple of New York have secured hotel reservations in Galveston for the evening of May 16, after the close of the Imperial Council in this city. El Mina Nobles will act as hosts to the New York Shriners. Special steamers will be chartered by the various northern and eastern temples and will bring hundreds of Nobles to Dallas via Galveston, while hundreds more will return to their homes throughout the east through Galveston.

Noble C. W. Hobson, Past Potentate of Hella Temple and Chairman of the finance committee, declares that the Imperial Shrine meeting is an event in which the whole southwest is interested and is gratified with the preparations now being made by the temples of Oklahoma and Texas for the entertainment of the visitors. It is his opinion that every thoughtful resident of the southwest recognizes in the Imperial Shrine as the greatest opportunity in history for advertising the development and resources and

HAWAII GIVEN SPECIAL FAVOR

At the meeting of the board of agriculture and forestry yesterday, the president reported that the department of agriculture in Washington had appointed the territorial entomologist, E. M. Ehrhorn, and his assistant, D. B. Kuhns, to represent the federal government here in the carrying out of the new regulations for plant quarantine, copies of which have been received. Mr. Giffard also stated that so well pleased was the federal bureau of entomology with the work of the local board, through its division of entomology, that it gave it full powers to act in matters of plant quarantine, a privilege accorded to few other quarantine districts of the nation.

Through representations made by the president to General Macomb, the war department had forbidden the bringing of dogs here in transports. Accordingly all the dogs belonging to the troops just arrived came in on the Lurline today.

Most of the business done at the meeting related to suggestions in divisional reports, the various items needing attention being referred to appropriate committees. Mr. Rice was appointed as substitute for Mr. Waterhouse during the latter's absence on the forestry committee, and Mr. Dowsett on the entomology committee. It was stated by the president that Dr. Norgaard would pay another visit to Waipio, Hawaii, next week to further investigate the conditions incident to the recent visitation of glanders there.

In connection with an advertising bill relative to a forest reserve transmitted by the attorney general, who has no fund for the purpose, there was an earnest discussion of the necessity of obtaining an emergency fund from the legislature.

With President W. M. Giffard there were in attendance Commissioners A. Waterhouse, J. M. Dowsett, H. M. von Holt and Arthur H. Rice.

CHILD DRUNKARDS

Terrible Conditions Prevail in Russian Schools

Remarkable statements concerning drunkenness among Russian school children are made by H. M. Grove, the British Consul, in his report on the trade of the Moscow district. It is admitted, he writes, that inebriety is very rapidly increasing among the school children in Russia in general and in Moscow and the Moscow provinces in particular. The Moscow town council recently made an inquiry into this subject, and it was stated that if the adults who are addicted to drink it had been ascertained that 90 per cent learned to drink while still at school. Out of 18,134 school boys in the Moscow Province, from ages of 8 to 13 years 12,152, or 66 per cent, drink strong liquors, and out of 10,404 girls of the same ages, 4,733, or 45 per cent, also drink.

future of their home states, attracting as it will thousands of the leading business and professional men of North America.

CLEANS THE HAIR AND MAKES IT BEAUTIFUL—25 CENT "DANDERINE"

In a Few Moments Your Hair Looks Soft, Fluffy, Lustrous and Abundant—No Falling Hair or Dandruff

Surely try a "Danderine Hair-Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies

TO RAISE TAXES OF KAUAI AND HAWAII

Territorial Treasurer Cook, head of the board of equalization, who at present is engaged in working out the tax rates on the various islands, has virtually completed his figures for the counties of Hawaii and Kauai. These show that the property tax rate on Hawaii is to be increased from \$1.18 per \$100, the rate last year, to \$1.23, the sum of \$45,000 being asked for this year, as against only \$30,000 used last year. Kauai will require \$24,165.77 more than last year, asking for a total collection of \$215,000 in 1913, which will advance the tax rate to \$1.36 per \$100 on that island.

VISITING CAPITALIST PLEASED WITH HAWAII

"I have been here three weeks and I like the country very much," said Albert Raiss, a San Francisco capitalist, met this morning at the Bank of Hawaii corner, amidst a bunch of local Wall Streeters.

"Everything is very beautiful and these are all good fellows. They have given me such a hearty welcome that I feel quite at home. Sugar stocks are down about as low as they will go and all will be lovely before long. I visited Olua plantation and found things looking so well that I have bought 200 shares of the stock."

Mr. Raiss is a partner of Carl Raiss & Co., members of the San Francisco stock and bond exchange and among the biggest stock broking firms of that city. He will remain here until the sailing of the Mongolia on the 28th inst., but he said this morning he would surely be back here soon.

Asked if California would make a fight in Washington against the removal of protection to the sugar industry, Mr. Raiss said it undoubtedly would, but for his part he did not think that any radical cut would be made in the sugar tariff.

CORPORATIONS HELP CHINESE RICE PLANTER

Corporations owning sugar plantations and stock ranches in Hamakua district have given timely relief to Akaka, the Chinese rice planter who recently lost all of his working animals excepting one by glanders. A fund of \$2400, with more to come if necessary, was lately deposited in Bishop's bank, having been contributed by the corporations just referred to, for the purpose of buying animals for Akaka to enable him to take off his crop. The money is a loan to Akaka, to be repaid when he is able. Companies represented by T. H. Davies & Co., F. A. Scheffer Co. and C. Brewer & Co., together with the Parker Ranch by A. W. Carter, trustee, were the contributors.

ASKS FUNDS

(Continued from Page 1)

The suggestion by navy officials of the need of three new ships, sends shivers down the back of Mr. Burnett, who redoubles his effort at the very thought of such an appropriation.

Mr. Burnett's antipathy to appropriations for battleships is an echo of the fight of last session, when the Public Buildings Committee, of which Mr. Burnett was acting chairman, and the Naval Affairs Committee engaged in a legislative duel for three months. The caucus declined to permit the bringing in of a public buildings bill, commonly known as the "pork barrel," and the Burnettes adopted the slogan:

"You can't have battleships if we can't have public buildings."

The Democrats of the House held four caucuses and finally compromised upon the insistence of the Senate, on an appropriation for one new ship.

The Public Buildings Committee is now drafting a \$30,000,000 pork barrel bill, but Mr. Burnett and a number of his colleagues have not forgiven the House leaders for the partial defeat of last year. Partly in consequence of the former struggle and also because Mr. Burnett is opposed to the customary authorization for two battleships each year, the Alabama member has inaugurated a campaign to prevent a battleship, appropriation during the present session.

The army remount depots have been depleted by the mounting of cavalry and other regiments returning from the Philippines, and Secretary Stimson has asked Congress to make immediately available \$100,000 of the \$325,240 estimated to be necessary for the purchase of horses for cavalry, artillery, engineers, etc., for the next fiscal year.

The Navy Department has announced that transatlantic steamship lines have agreed to move their tracks to the southward in order to avoid fog-barges, the danger to become effective January 15. The new tracks will be as follows: Eastbound, cross 47 degrees west longitude, in 10 degrees north latitude; west bound, cross 47 west longitude, in 11 degrees north latitude.

These crossings are one degree, or about six miles, to southward of crossings heretofore used at that time of the year. The branch office at New York reports the new tracks are due to recommendations of the hydrographic office concerning tracks suggested by Capt. Jamieson of the American line steamship St. Louis.

It is expected that the crossings
